

**PSE has proposed “Energize Eastside”  
A PROJECT TO ENLARGE THE POWER LINE  
NEAR YOUR HOME  
It’s DANGEROUS • EXPENSIVE • NOT NEEDED  
and CAN be stopped!**

*Included is a fact sheet that explains the many problems with this project*

**Support the legal battle to stop “Energize Eastside”**

Puget Sound Energy (PSE) must obtain permits to build this project from the cities of Bellevue, Renton, Newcastle and Redmond. Even if the cities approve the permits, there is an appeal process.

CENSE is assembling a team of technical and legal experts to testify before a Hearing Examiner. The record produced by this hearing is the only source of information that will be reviewed by city councils or court cases.

Our experts will provide compelling evidence proving that PSE’s project:

- is not needed to supply reliable electricity to our cities
- is not safe
- is too expensive
- is harmful to the environment
- is not a wise investment when smarter solutions are available

**Meet with us to learn more**

Come have coffee with us and get your questions answered.

**Monday, April 24<sup>th</sup> @ 7:00 - 8:30 p.m. at Bellevue Library (downtown)**

**Monday, May 1<sup>st</sup> @ 7:00 - 8:30 p.m. at North Bellevue Community Center**

**Tuesday, May 2<sup>nd</sup> @ 12:30 - 2:30 p.m. at Newport Way Library**

Together, we can prevail for reliable electricity and beautiful cities.
